SUBJECT: ZIEGLER RECLAMATION OF PRE-LAW SITE NEAR PARIETTE
M/047/013 - MEMO OF 1/11/96

REMARKS: ACCORDING TO THE LAW, ALL "ACTIVE" MINES (NON-COAL) MUST BE
PERMITTED WITH US. PRE-LAW RECLAMATION OR CLAIMS MAINTENANCE
WORK (NON-MECHANIZED) DOESN'T REQUIRE A PERMIT. EXPLORATION
WORK (MECHANIZED) MUST BE PERMITTED. OUR EXPLORATION DATABASE
WAS NOT REVIEWED - THAT INFORMATION IS CONFIDENTIAL.
IT IS POSSIBLE THAT SOMEONE IS DOING UNPERMITTED WORK OR
WORK THAT THE "MINERALS" PORTION OF THIS DIVISION DOES NOT PERMIT.

TO: Minerals File

FROM: Tony Gallegos, Reclamation Engineer *adef*

RE: Site Inspection, Ziegler Chemical and Mineral Company, Ziegler Pre-law Site/Pariette Area (File under M/047/013), Uintah County, Utah

Date of Inspection: December 12, 1995

Time of Inspection: 1050 - 1140

Conditions: Overcast, cold

Participants: Norm Haslem, Ziegler Chemical; Tony Gallegos, DOGM

Purpose of Inspection: To examine voluntary reclamation of some pre-law disturbances.

The site is located approximately in the NW/4 of Section 30, Township 8 South, Range 17 East. This mine site disturbance is located on patented claims, currently controlled by Ziegler. The disturbances included a sink hole, wooden debris and structures near the ridge, and a long line of excavated prospect holes below the ridge along the gilsonite vein. Reclamation was performed in this area in the fall of 1994. Work included about two days worth of debris removal and then about three days worth of earth work using a bulldozer. It also included the general clean-up around an old shaft that is currently open, but fenced. Again, this was voluntary work performed by Ziegler. Mr. Haslem felt this work was needed because of the visual impacts and attractive nuisance of the debris and disturbances. All these reclaimed areas are visible and immediately accessible from the road to Sand Wash. The Sand Wash road is heavily used by people accessing the Desolation Canyon stretch of the Green River and people servicing the oil wells in the area..

Photographs were taken of the reclaimed areas from several different view points. Mr. Haslem informed me that after the areas were seeded immediately after the earth work was done. I informed him that the Division appreciates and encourages this type of volunteer reclamation. The Division makes an annual Earth Day Award to mining companies for reclamation efforts above and beyond what the regulations require. This work by Ziegler may be a candidate for the Earth Day Award.
